Converteam signed two new contracts with Minerações Brasileiras Reunidas

Converteam Brazil has just signed two new contracts in the sectors of bulk - material handling and mining.

The first contract, in partnership with Sandvik/MGS, is to supply the electrical and automation systems of shiploader CN2, of MBR – Minerações Brasileiras Reunidas. The scope of this twelve-month contract includes electrical and automation engineering, low and medium voltage panels, drives, no-break supplies, erection supervision, commissioning, start-up, technical assistance and training.

The second contract is to built an electrical substation housed in a container for the Itabiritos project. The scope of the contract includes medium and low voltage panels, transformers, air conditioning and firefighting systems, no-break supplies, basic and detailed engineering, supervision of erection, commissioning and start-up. The work is expected to be completed in six months. Thanks to this substation, the electrical system will be more flexible as the container can be moved to other mining exploration areas.

"These two contracts are extremely important for Converteam" , says Eduardo Corrêa, Sales Manager, Bulk Material Handling. " We have been partners of Sandvik for over ten years and we have also carried out several other projects for MBR. These new contracts confirm that we are reaching our objectives to offer customized solutions meeting all our customers' needs".
